RE: Letter of Recommendation

To Whom It May Concern,

Keane Constructor, Inc performed a tenant improvement in our commercial building and my experience with Mr. Keane and his firm was excellent.

I found John to be an exceptional professional with great integrity. He is highly experienced, skilled, knowledgeable, and detail-oriented. He has respect for his team of craftsmen and his team respects him. He and his team delivered construction of excellent quality and within the time that they said that they were going to do it. He communicated with me well throughout the process and delivered an excellent product at a reasonable, value-added cost.

John Keane holds a remarkable principle of staying “true to the building”. In other words, his goal was making the work right to fit the structure; crafting the construction to preserve the integrity of the building as a whole. I highly recommend John Keane and Keane Constructors, Inc.

Sincerely,

Margaret Lundgren
