I have had the pleasure of working with John Keane on several different remodel projects in the medical office where I work over the last 3 years. Whether it was a small project or large, the same dedication and attention to detail was always given. John has always adhered to the time line for the completion of the job as well as lending his expertise with decision making in some of the finer details...such as paint color choices. Working with a contractor is at times very trying, especially if you are having the work done while your office is open. John and his work crew make every effort to disrupt the office as little as possible and take great care in cleaning up after themselves.

Kudos to you John for offering such a great service.
